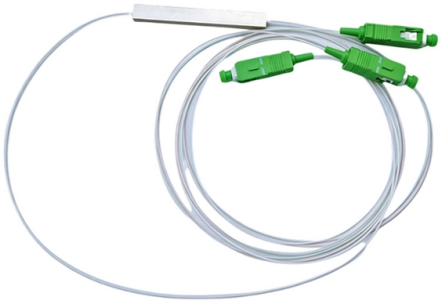
24-core fiber optic splice box self-operated



Overview

Efficiently manage and protect up to 24 optical fiber cores with the SMC 24 cores fiber optic termination box, featuring durable SMC construction, IP65-rated protection, and versatile wall or pole mounting for seamless indoor and outdoor installations. Can orderly store fiber connector and remaining fiber, in which the storage disc can be up to four layers large capacity and adjusted according to the number of cores connected by the optical cable. Prevents aging of materials caused by heat, cold, light, oxygen and in nature, with excellent. A 24-core fiber optic splice box, also known as an FTTH (Fiber to the Home) terminal box or closure, is a vital component in modern fiber optic networks. It provides a secure, organized, and protected environment for splicing, terminating, and managing fiber optic cables. Perfect for FTTH and FTTX networks. The HTB8067 24 Port Indoor Fiber Optic Distribution Box is designed for clean, efficient cross-connection between outdoor backbone cables and indoor subscriber fibers.
