

A comprehensive price list for network server racks

Overview

Server Racks Shop and compare rack enclosures and wall mount cabinets designed for flexible deployments. 4 post open frame, 2 post open frame models available.

Key Takeaways

The cost of a network server rack in the U. S. typically ranges from \$500 to \$6,000 per rack, depending on type, size, and features. Basic Rack Costs Entry-level or wall-mounted racks: \$200-\$600, suitable for small offices or network closets.

Mid-range floor-standing racks: \$500-\$2,000, offering better capacity, durability, and basic cooling. High-end or enterprise-grade racks: \$2,000-\$5,000+, often enclosed with advanced cooling, security, and monitoring features.

High-

Density and Custom Racks High-density racks (for blade servers or dense equipment setups): \$2,500-\$5,000 per rack. Custom modular racks: \$3,000-\$6,000 depending on specifications, materials, and optional features like antimicrobial coatings or reinforced rails.

Additional Costs

Equipment: Servers (\$1,000-\$10,000 each), networking devices (\$500-\$5,000 each), and storage (\$100-\$3,000 per unit) significantly increase total investment. Cable management: Basic systems \$200-\$1,000; advanced rack-mounted systems \$1,000-\$3,000. Power and cooling: PDUs \$200-\$1,500, UPS \$1,000-\$10,000, and cooling systems \$500-\$5,000.

Labor: Installation labor typically costs \$50-\$200 per hour, with total labor per rack ranging from \$150-\$900 depending on complexity.

Summary

For a standard 42U rack with basic accessories, expect a total cost of \$1,000-\$2,600, including materials and labor. For fully equipped enterprise racks with advanced cooling, monitoring, and security, costs can rise to \$3,500-\$6,000 per rack. The final cost depends on rack type, size, included equipment, and installation complexity, so planning for future scalability and power requirements is essential.
