Key Takeaways

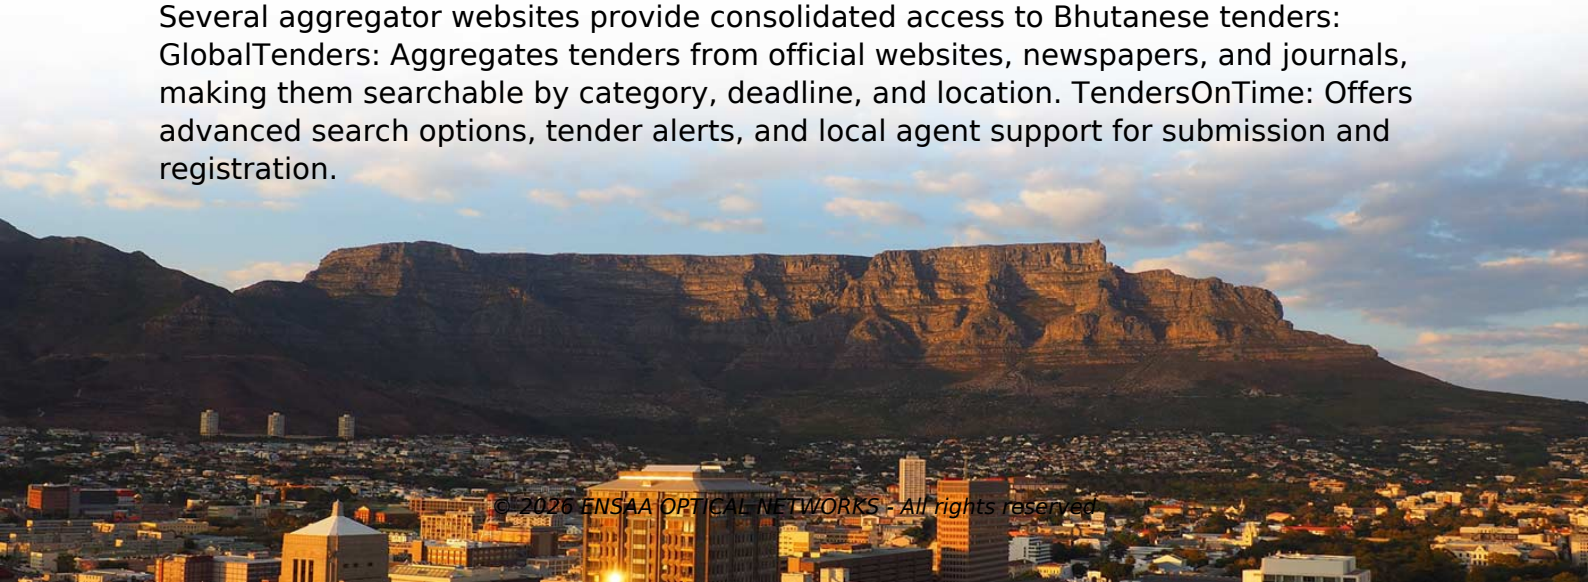

Cable tray procurement in Bhutan is primarily managed through the Royal Government's e-GP system, with tenders accessible via official and aggregator platforms.

Official Procurement Platforms

The Electronic Government Procurement (e-GP) System is the central portal for all government procurement in Bhutan, managed by the Ministry of Finance. It allows suppliers to access tenders, corrigenda, and contract award notifications across various procuring agencies. For cable tray procurement, suppliers should regularly check the e-GP portal for relevant tenders and download the tender documents directly.

Tender Aggregator Platforms

Several aggregator websites provide consolidated access to Bhutanese tenders: GlobalTenders: Aggregates tenders from official websites, newspapers, and journals, making them searchable by category, deadline, and location. TendersOnTime: Offers advanced search options, tender alerts, and local agent support for submission and registration.
