Cable tray backplate price chart

Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

Key Takeaways

Cable tray backplates and covers typically range from $0. 92 to $34 per unit for small-scale purchases, with bulk B2B prices ranging from $0. 80 to over $76 depending on material and size.

Price Overview

The cost of cable tray backplates depends on material, size, and certification: Material: Galvanized steel, stainless steel (SS 304), aluminum, or fireproof FRP. Stainless steel and fireproof materials are more expensive due to durability and compliance with safety standards. Size and Thickness: Standard backplates or covers for trays (e.g., 100 x 60 mm, 200 x 60 mm, 300 x 60 mm) with material thickness from 0.

8 mm to 1. 5 mm affect pricing. Certification: CE certification, DIN, ISO, and fire resistance ratings (E90) can increase cost but ensure compliance for industrial or commercial installations.

Market PricingB2C (retail): Small-scale purchases, such as individual backplates or covers, are priced between $15 and $34 per unit.

B (bulk): Wholesale or industrial orders can range from $0. 80 to over $76 per unit, depending on size, material, and quantity. Bulk purchases often offer significant savings per unit.

Accessories: Clips, screws, and clamps for securing backplates or covers are additional but generally low-cost components.

Considerations for Purchase

Installation: Backplates are designed to interlock with cable trays and are secured with screws (e.g., M6 x 20 mm), making installation straightforward. Environment: Choose material based on indoor/outdoor use, exposure to moisture, or heavy-duty industrial applications. Galvanized steel is common for general use, while stainless steel is preferred for corrosive environments.

Compliance: Ensure the backplate meets local electrical and fire safety standards, especially for commercial or industrial projects. In summary, expect to pay $1–$35 per backplate for standard sizes in retail, with bulk industrial orders potentially exceeding $70 per unit for premium materials. Prices vary based on material, size, certification, and order volume, so sourcing from suppliers like Alibaba, McMaster-Carr, or Ekabel24 can provide both options and competitive pricing.
