

Cambodian electrical distribution box model

Overview

Electrical Boxes – LIUMENG Authorized Sales Distributor of MEP AHE3 – Circular Surface Box 3 ways for non-threaded conduits 0.10\$0.01\$ AHE4 – Circular Surf.

Key Takeaways

Cambodian manufacturers offer a range of LV and MV distribution boxes, switchboards, and metal enclosures suitable for industrial, commercial, and residential applications. Key Models and Specifications¹.

ED

C Distribution Boxes (EDC, Cambodia) LV Distribution Board for Indoor Substations and One Pillar Substations (EDC-DTS-LV003): Designed for low-voltage indoor applications, suitable for small to medium consumer loads. Compact Prefabricated MV/LV Substation and RMU Cabinets (EDC-DTS-MV012): Modular design for medium-voltage distribution, includes integrated protection and switching devices.

Pole Mounted Three-

Phase and Two-Phase Boxes (EDC-DTS-MV001): Outdoor-rated, suitable for overhead line connections and pole-mounted installations.

L

V Underground Cable and Connecting Accessories (EDC-DTS-LV006): Supports underground cable terminations with waterproof and corrosion-resistant enclosures. These models are designed according to Cambodian technical standards and include features like earthings, waterproofing, and pre-insulated lugs for safe and reliable operation. 2.

Soma Energy Panels

Main Distribution Boards (MDB): Houses fuses, circuit breakers, and ground leakage protection units. Supports single or multiple incoming power sources with main circuit breakers and residual current devices. Automatic Transfer Switch (ATS) Integrated Panels: Provides 24-hour power protection, automatic start-up of generators, and synchronization with the main grid.

Suitable for hotels, hospitals, banks, airports, and industrial facilities. Medium and Large Distribution Transformers: Panels designed to interface with transformers from 100 kVA to 2500 kVA, distributing electricity efficiently to consumer points. 3.

G

V Industries Metal Enclosures (BAM3106) Industrial Automation and Power Application Cabinets: High-quality metal enclosures for electrical distribution, networking, and telecommunication applications. Customizable Racks and Cabinets: Designed for indoor and outdoor use, providing robust protection for electrical components. Suppliers and Services in Cambodia EEPS Co., Ltd: Specializes in medium voltage distribution, grid automation, and building automation systems.

Offers switchboards, switchgear, transformers, and renewable energy solutions like solar and energy storage systems. Go4WorldBusiness Listings: Connects buyers with Cambodian suppliers of electrical distribution boxes for bulk orders and wholesale procurement. Summary Cambodian-made electrical distribution boxes range from low-voltage indoor boards to medium-voltage prefabricated substations, with features including circuit protection, waterproofing, and modular design.

Leading suppliers like EDC, Soma Energy, GV Industries, and EEPS provide both standard and customizable solutions for industrial, commercial, and residential applications, ensuring compliance with local technical standards and safety requirements.
