Compression-resistant molded energy-saving cable trays

Overview

Energy saving molded cable trays are designed to reduce energy consumption and resource waste through structural optimization and functional design. Zhejiang Huikun Power Transmission and Distribution Equipment Co. Ltd is a company specializing in R&D manufacturing, and sales of power transmission and transformation equipment. An enterprise integrating sales and service, The company is located in the beautiful. General use of the life is relatively long, and low installation costs, installation is very convenient, often used for long-distance power transmission cable erection, its superiority is very obvious. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. ECTRAY offer a wide range of perforated cable trays which are fabricated using quality raw material such as Zinc Aluminum Magnesium (ZAM).
