General Pricing Overview

Antenna pigtails and jumpers for WiFi, GPS, cellular, and ham radio applications can range from \$5-\$15 per cable, depending on connector type and length (AIR802). Stranded electric pigtails for grounding or device connections are often sold individually or in packs, with prices starting around \$2-\$10, and special pricing available for schools, government, or corporate orders (TEquipment).

Wholesale options are available on platforms like Alibaba, where prices can drop significantly for bulk orders, sometimes below \$1 per cable depending on quantity and specifications.

Factors Affecting Price
