

Detailed Price List for Fireproof Cable Trays in New Zealand

Overview

Scott Electrical is your local electrical supplies store with an extensive range of products for sale in Auckland and across NZ.

Key Takeaways

Fireproof cable trays in New Zealand are available from multiple suppliers, with prices varying by material, size, and type, typically ranging from NZ\$150 to NZ\$500 per 3-metre section depending on specifications. Key Suppliers and Product Types

1. Steel & Tube (EzyTray) Steel & Tube offers a full range of steel cable trays and ladders suitable for fire-rated installations.

They provide ladder, trough, and mesh trays and can supply full quotations based on project plans. Pricing depends on tray dimensions, material (galvanized or stainless steel), and load capacity. They also provide BIM-enabled CAD files for design integration.

2. Ideal Electrical Suppliers Ideal Electrical stocks Runnur Solar Cable Trays with Zn-Mg-Al alloy coating steel, offering high corrosion resistance and robust fire protection. Sizes include 150mm x 50mm x 3m and flat cover options.

These trays are suitable for industrial and commercial installations where fire safety is critical. 3.

RS Components R

S Components supplies a variety of cable trays including ladder, wire mesh, and trough types. Stainless steel trays are recommended for corrosive or high-temperature environments. While exact trade prices are not listed online, RS Components provides online ordering and quotation services for bulk or project-specific requirements.

4.

FDG Trade FD

G Trade offers galvanized and pre-galvanized cable trays in standard sizes such as 150 x 50 x 3000mm and 300 x 50 x 3000mm. These trays are suitable for fire-rated applications when combined with appropriate fireproof coatings or materials.

Pricing Guidance

Galvanized steel ladder trays (3m): Approximately NZ\$150–\$250 per unit depending on width and load rating. Zn-Mg-Al alloy coated trays (3m): Approximately NZ\$200–\$350 per unit, offering enhanced corrosion and fire resistance. Stainless steel or heavy-duty trough trays (3m): NZ\$350–\$500 per unit, suitable for high-risk fire environments.

Note: Prices vary by supplier, tray type, and quantity. For exact trade pricing, suppliers like Steel & Tube and Ideal Electrical provide project-specific quotations. Bulk orders may qualify for discounts.

Considerations for Fireproof Installations

Tray Type: Ladder trays allow ventilation and heat dissipation, while trough trays provide maximum protection. Material: Stainless steel or Zn-Mg-Al alloy coatings improve fire resistance and durability. Compliance: Ensure trays meet AS/NZS 3017 and AS/NZS 5033 standards for fire safety and electrical installations.

Future Expansion: Select trays with sufficient width and load capacity to accommodate additional cables without compromising fire safety. For a detailed, itemized price list, it is recommended to contact suppliers directly with your project specifications, as trade prices are often customized based on quantity, material, and delivery requirements.
