

Dominican Republic Steel Cable Tray Price List

Overview

dominican-republic-metal-cable-tray-price-list Since 1982, VALDINOX has been designing and manufacturing wire mesh cable trays, supports, and easy-installation.

Key Takeaways

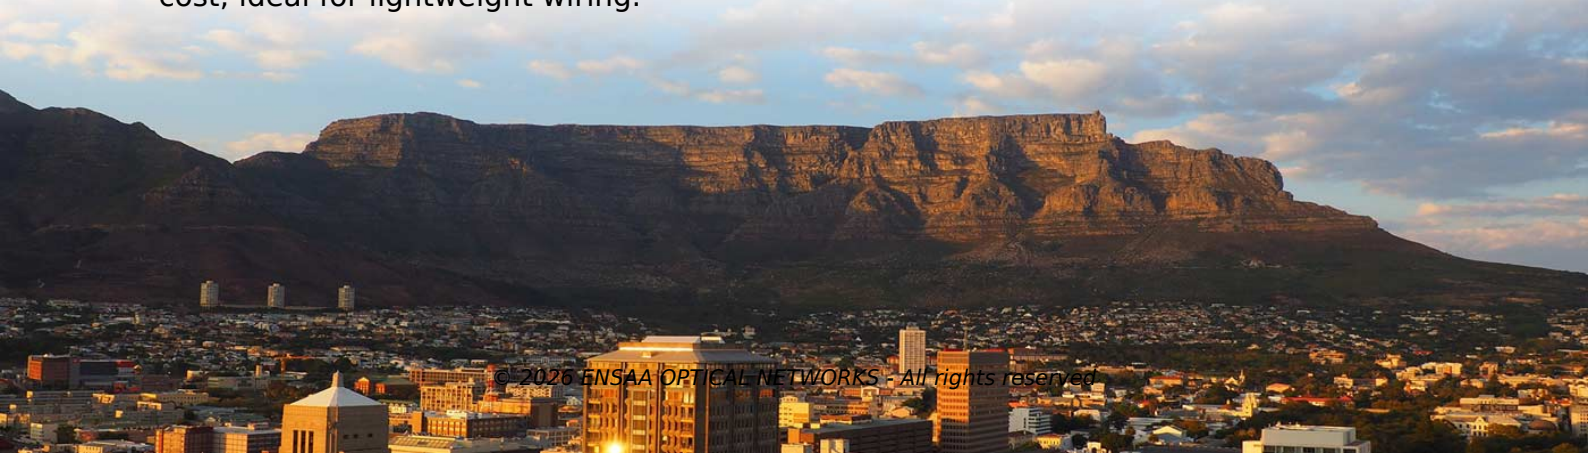

Steel cable tray prices in the Dominican Republic typically range from \$2 to \$25 per meter, depending on material, type, and size, with galvanized steel being the most common and cost-effective option.

Price Overview

Cable tray pricing depends on several factors including material, tray type, size, surface finish, and order quantity. Typical ranges are: Galvanized Steel Trays: \$2–\$15 per meter; durable and widely used for industrial and commercial projects. Stainless Steel Trays: \$10–\$25 per meter; corrosion-resistant and ideal for harsh environments.

Aluminum Trays: \$8–\$20 per meter; lightweight and rust-proof but more expensive than steel. Plastic or Fiberglass Trays: \$2–\$10 per meter; suitable for light loads and budget-conscious projects. Tray type also affects cost: Ladder Trays: Higher cost due to heavy load capacity.

Perforated Trays: Moderate cost; allow airflow and cooling. Wire Mesh Trays: Lower cost; ideal for lightweight wiring.

Cost Factors

Surface Treatment: Hot-dip galvanizing (HDG) increases durability and price; powder coating adds protection and color options. Tray Dimensions: Wider or taller trays require more material, increasing cost. Bulk Orders: Large orders can reduce per-meter cost by 20–40%.

Installation and Labor: Skilled labor costs vary by location and project complexity.

Local Market Variations: Importing trays or sourcing locally can affect pricing.

Suppliers in the Dominican Republic Several reputable suppliers and manufacturers operate locally: Brilltech Engineers Pvt.

Ltd.: Offers galvanized, stainless steel, and fiberglass trays with custom sizing and installation support. Jeetmull Jaichandlall (P) Ltd.: Specializes in stainless steel cable trays with high-quality finishing and global service. Cable House: Provides a wide range of cable trays, hose clamps, and accessories with custom solutions.

Recommendations

For industrial or outdoor projects, galvanized or stainless steel trays are recommended for durability. For lightweight or indoor applications, perforated or wire mesh trays can reduce costs. Contact suppliers directly for project-specific quotations, as bulk orders and custom dimensions can significantly affect pricing.

By considering material, tray type, and supplier options, you can optimize both cost and performance for your cable management project in the Dominican Republic.
