

# Fiber Optic Cable DM

## Overview

- Type DM: A technical designation used by manufacturers like Percon for tight buffered fiber optic cables designed for both indoor and outdoor installations, with high durability and flexibility features. Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations. FS offers a wide range of fibre optic cables (2,000+ selections) with free cabling solution designs to satisfy data center, enterprise, NSP & ISP network applications. R&M (Reichle & De-Massari AG) is a leading global producer of future-proof products and systems for communication and data networks. The company's close collaboration with certified partners results in pioneering work in the sectors LAN, Public and Telecom Networks as well as Data Centers.
