

Fiber optic connector box red light

Overview

If you see a red light, follow these steps to restart your connection: Power cycle the Fiber Jack by unplugging it from power. Four-light models: Unplug the AC adapter from the wall or directly from. If you find that the Optical/Config/PON Light on your Fibre ONT (Optical Network Terminal) box is flashing, has gone off, or has gone red, this indicates there may be an issue with the fibre connection coming into your property. The lights on your Fibre Connection Box let you know when everything's working as it should be and can tell you what's wrong if you're having problems. The Fiber Jack is the small box on your wall where the fiber optic cable enters your home. Before we start troubleshooting, let's make sure you've found the right device. Your Fiber Jack is the small white box that connects your home to. This guide will walk you through what the LOS light means, why it blinks red and step-by-step instructions on how to resolve the issue, including resetting your router.
