Finding jobs for cable tray installation

Overview

Cable Tray Installation Jobs, Employment | Indeed1,921 Cable Tray Installation jobs available on Indeed.com. Apply to Cable Installer, Low Voltage Technici.

Key Takeaways

You can find cable tray installation jobs on major job platforms like Indeed, LinkedIn, SimplyHired, and through specialized structured cabling contractors in your area.

Online Job Platforms

Indeed lists over 1,400 positions for cable tray installation and related roles such as low-voltage technician, cable installer, and cable technician, allowing you to filter by location and experience level (Indeed.com).

Linked

In provides structured cabling job listings, particularly in metropolitan areas like Manhattan, with new positions added daily, and also allows networking with industry professionals (LinkedIn.com).

Simply

Hired offers a searchable database of cable technician jobs, including opportunities in Manhattan, with salary comparisons and company reviews to help you evaluate potential employers (SimplyHired.com).

Specialized Contractors4

Wires Security provides structured cabling and low-voltage wiring services in New York City, including Manhattan, Brooklyn, Queens, Bronx, and Staten Island. They often hire technicians for commercial and residential installations, network setup, and maintenance (4wires.com). Neteam Solutions specializes in professional structured data and voice system installations, covering all phases from design to testing.

They hire technicians experienced in cable management, server room setup, and certification of installations in the NYC area (Neteamsolutions.com).

Tips for Job Seekers

Certifications: Consider obtaining certifications such as BICSI Installer, low-voltage technician credentials, or OSHA safety training to improve employability. Networking: Connect with local contractors and industry groups on LinkedIn or trade associations to discover unlisted opportunities. Experience: Highlight experience with CAT5e, CAT6, and other structured cabling systems, as well as familiarity with cable tray installation and low-voltage wiring.

By combining online job platforms with direct applications to specialized contractors, you can maximize your chances of finding cable tray installation positions in your area.
