How much does a galvanized cable tray cost in the Bahamas

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

Galvanized cable trays in the Bahamas typically cost between $5 and $25 per meter, depending on type, size, and supplier.

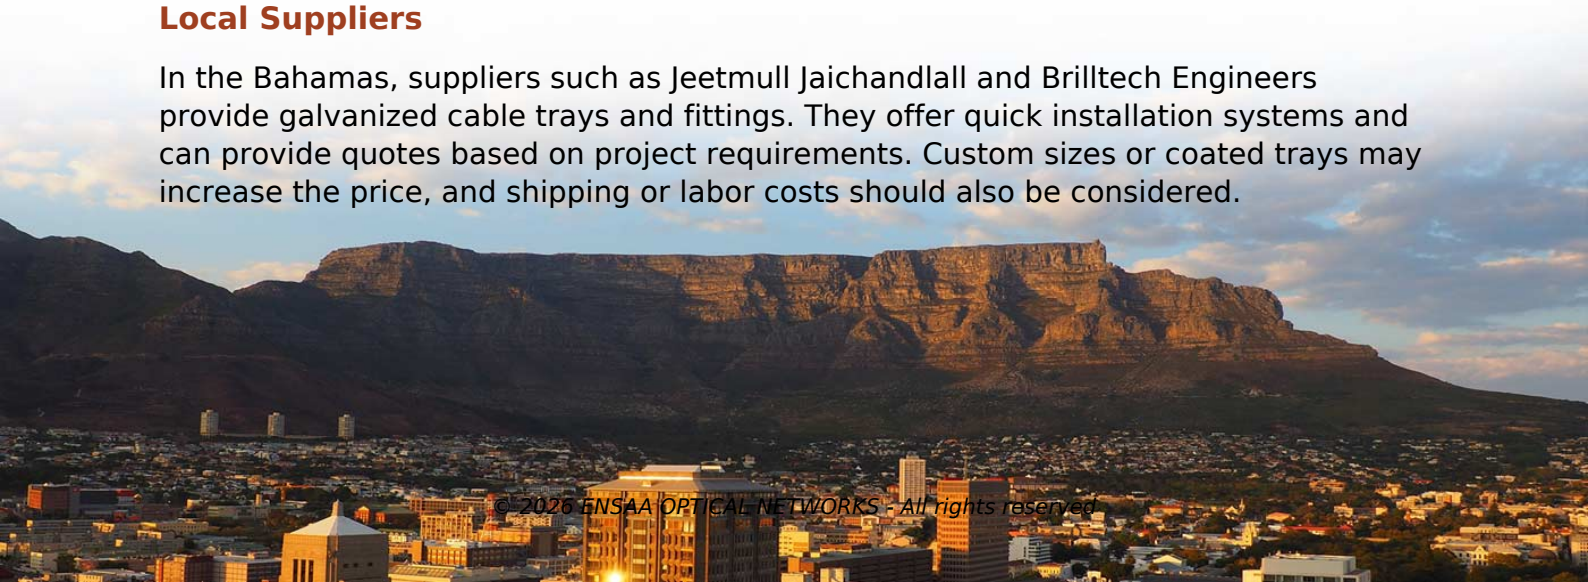

Price Range and Factors

The cost of galvanized cable trays varies based on material, tray type, size, and surface finish. Steel trays are the most common and cost-effective, while hot-dip galvanized trays offer better corrosion resistance but may be slightly more expensive. Standard ladder-type galvanized trays are priced per meter, with typical costs ranging from $10 to $30 per meter, while smaller or perforated trays may be cheaper, around $5 to $15 per meter.

Bulk orders or project-based pricing can reduce the per-meter cost.

Local Suppliers

In the Bahamas, suppliers such as Jeetmull Jaichandlall and Brilltech Engineers provide galvanized cable trays and fittings. They offer quick installation systems and can provide quotes based on project requirements. Custom sizes or coated trays may increase the price, and shipping or labor costs should also be considered.

Cost-

Saving Tips

Bulk purchasing can significantly lower unit costs. Selecting perforated or wire mesh trays instead of heavy ladder trays can save 10–15%. Comparing multiple suppliers in the Bahamas ensures competitive pricing.

Planning ahead and ordering before peak construction seasons may reduce costs. Overall, galvanized cable trays are a durable and cost-effective solution for electrical installations in the Bahamas, balancing longevity with affordability.
