

How much does it cost to customize Egyptian cable trays

Overview

Rovana Trade With a fully equipped factory and expert team, we deliver durable, customized, and reliable solutions for electrical and industrial infrastruc.

Key Takeaways

Custom-made Egyptian-style cable trays typically range from \$20 to \$150 per meter, depending on material, design, and load capacity.

Pricing Factors

The cost of custom cable trays in Egypt depends on several factors: Material: Common materials include galvanized steel, stainless steel, and aluminum. Galvanized steel is generally the most cost-effective, while stainless steel offers higher corrosion resistance and durability, increasing the price. Aluminum trays are lightweight but can be more expensive for heavy-duty applications.

Design and Type: Ladder trays, perforated trays, and solid-bottom trays have different manufacturing complexities. Custom designs for specific industrial or commercial layouts can increase costs. Load Capacity and Size: Trays designed to carry heavier cables or wider spans require thicker materials and additional support, which raises the price.

Customization: Special bends, cutouts, or integration with other cable management systems add to the cost. Companies like Metaltech, NTT Al-Tawakol, Metal Egypt, EEE, Masar, and EGYTRAY offer tailored solutions for industrial and commercial projects. Standards and Certifications: Compliance with international standards (e.g., IEC, BS) ensures safety and reliability but may slightly increase the price.

Typical Price Range

Based on industry norms in Egypt: Standard cable trays: \$20-\$50 per meter Heavy-duty or industrial trays: \$50-\$100 per meter Fully customized or specialty trays: \$100-\$150 per meter These prices may vary depending on the supplier, order volume, and additional services such as installation or delivery.

Recommended Suppliers in Egypt

Metaltech: Offers robust ladder, perforated, and solid trays suitable for industrial and commercial applications.

NTT Al-

Tawakol: Specializes in customizable galvanized steel trays for various industries.

Metal Egypt: Provides heavy-duty trays with aesthetic and functional customization options.

EGYTRA

Y (El-Sewedy Group): Known for precision-engineered cable management systems with end-to-end solutions. Rovana Trade: Supplies durable, customized cable trays and ladders for industrial infrastructure. For accurate pricing, it is recommended to contact these manufacturers directly with your project specifications, including tray dimensions, material preference, load requirements, and any special customization needs.

This ensures a precise quotation tailored to your project.
