

How much does it cost to customize cable trays in Thailand

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

Cable trays in Thailand range from approximately 1,000 to 5,000 THB per 3-meter section depending on material, size, and type.

Overview of Cable Tray Types and Materials

Cable trays are used to safely support and organize electrical and communication cables in buildings and industrial facilities. Common types include:

- Ladder Cable Trays: Open design, ideal for heavy-duty cables and easy maintenance.
- Perforated Cable Trays: Solid base with holes for ventilation, suitable for medium loads.

Wire Mesh/

Basket Trays: Lightweight, flexible, and easy to install for smaller cable runs.

Materials: Galvanized steel, stainless steel (304), and epoxy-coated steel are widely available, with stainless steel being more expensive but highly durable.

Typical Sizes and Prices

Standard 3-meter lengths are common. Widths range from 100 mm to 1000 mm, and heights from 25 mm to 150 mm.

HD

G (Hot-Dip Galvanized) steel trays: Prices generally start around 1,000–2,500 THB for smaller sizes (100W x 25H x 3000L mm) and can go up to 4,000–5,000 THB for larger sizes (500W x 100H x 3000L mm),. Stainless steel 304 trays: Typically higher priced, around 3,000–5,000 THB per 3-meter section, depending on width and thickness. Epoxy-coated or painted trays: Offer corrosion resistance and are priced similarly to galvanized trays, slightly higher for premium coatings.

Suppliers in Thailand RS Online Thailand: Offers stainless steel cable trays with international shipping options.

CJ

S Supply: Provides a wide range of HDG ladder and cable trays, customizable to specifications. Klangfaifa: Distributor of perforated trays, wireways, and ladder trays with catalog requests available. Thai Electrical Hub: Supplies galvanized and epoxy-coated trays with widths from 200–1000 mm and ready-to-ship stock.

Jet Steel and Services: Offers perforated, wireway, and basket trays with wholesale pricing and consultation.

Recommendations

For industrial or outdoor use, consider stainless steel or galvanized trays for durability. For lightweight indoor applications, perforated or wire mesh trays are cost-effective. Always check with suppliers for bulk discounts and delivery options, as prices can vary based on quantity and customization.

By comparing these options, you can select cable trays that balance cost, durability, and suitability for your specific project in Thailand.
