Huawei S5300 Core Switch Configuration

Overview

View and Download Huawei Quidway S5300 Series quick start manual online. Quidway S5300 Series switch pdf manual download.

Key Takeaways

Huawei S5300 core switches can be configured via CLI for device management, VLANs, port assignments, and remote access using SSH or Telnet.

Initial Setup and Device Management

Connect to the switch using the console port or SSH for remote access ( ). Log in with the default username and password. Set the device name for identification: CodeCopysystem-viewsysname S5300-Core Configure the management IP address on a VLAN interface to enable remote management: CodeCopyinterface Vlanif 1ip address 192.
