Indoor Imported Optical Cable Manufacturer

Overview

Indoor optical cable Find your indoor optical cable easily amongst the 38 products from the leading brands (LEMO, HUBER+SUHNER, CORNING.) on DirectIndu.

Key Takeaways

Leading manufacturers of indoor fiber optic cables include DEKAM, OTSCABLE, Hedot, UnitekFiber, and APAR, offering high-quality, customizable solutions for commercial and residential applications. Key Manufacturers and OfferingsDEKAM specializes in customizable indoor fiber optic cables, providing options for fiber type (G652D, G657A1/A2, OM2–OM4, OS1/OS2), jacket material, core count, length, and packaging. Their products are suitable for data centers, commercial buildings, and home networks, with options for branding and free sample evaluation.

OTSCABL

E manufactures both indoor and outdoor fiber optic cables with a focus on high bandwidth and long-range performance. They offer OEM/ODM services and a variety of indoor cable types designed for easy integration and routing within buildings. Hedot provides indoor fiber optic cables engineered for fire safety, flexibility, and ease of handling.

Their products include bow-type cables for FTTH applications and general indoor wiring for LANs, data centers, and telecommunications within buildings.

Unitek

Fiber produces indoor optical cables in single-mode and multi-mode configurations, including simplex, duplex, distribution, and breakout types. They emphasize bending resistance (G657A1/A2 fibers) and offer fire-rated options like CPR Eca|Dac and UL OFNR|OFNP cables.

APA

R offers high-capacity indoor optical cables with low lead times, including tight-buffered and ribbon cables for FTTH and point-to-point networks. Their products are designed for high-bandwidth communication and include fire-resistant and hybrid copper-fiber constructions.

Applications

Indoor fiber optic cables are primarily used for: Building backbone cabling and LANsData centers and server roomsTelecommunications within commercial, residential, and government buildingsFTTH (Fiber to the Home) installationsHealthcare, military, and industrial facilities These cables are designed for short to medium distances, prioritizing flexibility, fire safety, and minimal interference compared to outdoor-rated cables.

Considerations for Importing

When sourcing indoor optical cables internationally: Verify fiber type and core count to match network requirementsCheck jacket material and fire ratings for compliance with local building codesConfirm customization options for length, packaging, and brandingRequest samples to evaluate signal quality and durabilityEnsure the manufacturer provides OEM/ODM support and reliable shipping By selecting a reputable manufacturer like DEKAM, OTSCABLE, Hedot, UnitekFiber, or APAR, you can secure high-quality indoor fiber optic cables suitable for a wide range of applications.
