Key Takeaways

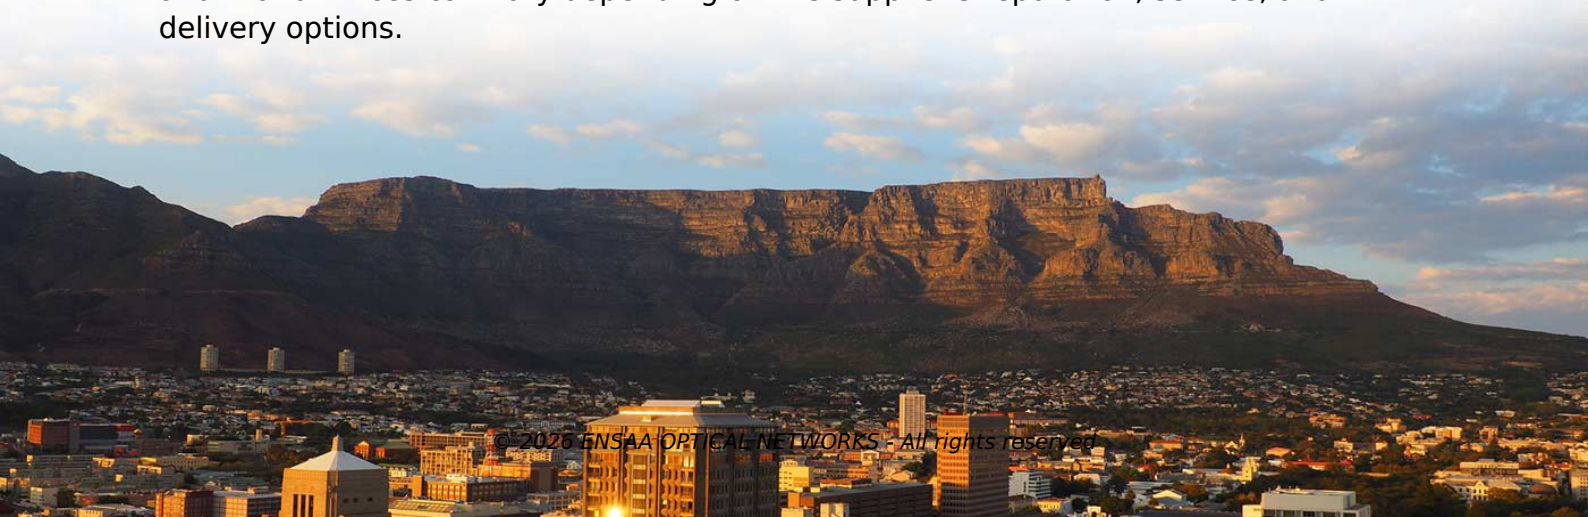

Horizontal cable trays in Jamaica are generally affordable, with prices varying by material, size, and supplier, and exact quotes are best obtained directly from local suppliers.

Overview

Horizontal cable trays are widely used in Jamaica for organizing and managing electrical cables efficiently. They are typically made from steel or aluminum, offering durability, low maintenance, and ease of installation. These trays are cost-effective compared to other cable management solutions and are often recyclable, promoting sustainability.

Factors Affecting Price

Material: Steel trays are generally more robust and slightly more expensive than aluminum or non-metallic options. Size and Configuration: Larger trays or those with specialized designs (e.g., perforated, ladder, or solid-bottom) may cost more. Supplier and Brand: Prices can vary depending on the supplier's reputation, service, and delivery options.
