

LCD KVM Switch All-in-One Unit

Overview

The LCD KVM Series integrates a high-resolution LCD display, keyboard, and touchpad with advanced KVM switch technology — all within a single rackmount console. Designed for modern data centers and server rooms, these solutions provide direct, space-efficient access to multiple servers from one. Featuring a space-saving, streamlined approach to KVM switching technology by integrating an LCD panel, full keyboard, and touchpad into a 1U rack-mountable sliding housing. Serving as the front-end for standard KVM switches, with convenient at-the-rack console access to KVM switches already. Kinan is one of the top LCD KVM Switches and Console manufacturers due to our keen eye for details. Each of our switches and consoles can achieve a mean-time-between-failure (MTBF) rate of 50,000 hours. This rate is required by the top IT industries across the globe. It allows access, management, and control of up to 8 computers from a single console. Compatible with a wide. StarTech.
