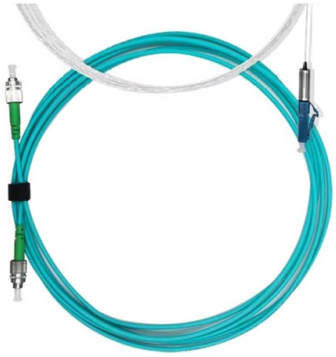
Lao fiber optic cable junction box manufacturer



Overview

Find your fiber optic junction box easily amongst the 64 products from the leading brands (HS, LAPP, Cahors, ...) on DirectIndustry, the industry specialist for your professional purchases.

Key Takeaways

While there are no specific fiber optic junction box manufacturers based in Laos, several reputable Chinese and international suppliers can provide high-quality products and deliver to the Lao market. Recommended Manufacturers1. Fibermint Fibermint is a leading Chinese manufacturer of fiber optic splice closures, distribution boxes, and terminal boxes.

They offer OEM/ODM solutions, allowing customization of port configurations, cable entry diameters, and materials. Their products are designed for FTTx networks, with IP55-rated enclosures suitable for indoor and outdoor use. Fibermint provides rapid sample delivery (within 5 days) and bulk production lead times of 15 days, making them suitable for large-scale deployments in Laos.

2.

PUYANG YR

T is a Chinese supplier specializing in fiber optic junction boxes. They offer a range of products suitable for residential, commercial, and industrial fiber networks, with options for wall-mounted or pole-mounted installations. 3.

Huamai Huamai manufactures customized fiber joint boxes for FTTH and optical access networks. Their enclosures are made from durable ABS+PC materials, feature IP65 sealing, and support modular designs for easy maintenance. They are suitable for outdoor and indoor applications, including residential corridors, industrial parks, and building distribution rooms.

4. Yingda Technology Limited Yingda provides fiber optic termination boxes and splitter boxes for FTTH and ODN networks. They focus on high-quality production, strong R&D capabilities, and offer solutions for telecom operators and distributors.

Their products are widely used in large-scale fiber deployments.

Considerations for Laos

Import and Delivery: Since Laos has limited local manufacturing for fiber optic junction boxes, importing from China or nearby countries is common. Most suppliers offer international shipping and logistics support. Customization: Many manufacturers provide customized solutions to meet specific network requirements, including port density, cable entry size, and environmental protection ratings.

Standards Compliance: Ensure the products meet IP ratings (IP55–IP65) for outdoor durability and comply with local telecom standards. For projects in Laos, contacting these manufacturers directly can provide quotes, technical specifications, and shipping options to ensure timely deployment of fiber optic networks.
