Malta Home Electrical Distribution Box Specifications

Overview

Power Distribution & Domestic Consumer Unit – BigMat MaltaThe Marlanvil Surface Distribution Box is designed to accommodate up to 4 modules in a waterproof.

Key Takeaways

Home electrical distribution boxes in Malta vary in size, material, and protection rating, with common options including IP55 to IP66 enclosures suitable for indoor and outdoor use.

Common Types and Materials

Series S

T Wall Mount Boxes: Made of pressbent steel sheet with hidden hinges, these boxes feature a triple-angle edge for enhanced protection and are powder-coated with epoxy-polyester RAL 7035 textured paint. Stainless steel versions are available on request. The inner mounting plate is 2.

0 mm thick galvanized steel, fixed with welded screws, providing robust support for electrical components (iAutomate Malta). Marlanvil Surface Distribution Box: Designed for up to 4 modules, this IP65-rated enclosure is waterproof and dustproof, suitable for outdoor installation. It includes a reversible smoked polycarbonate door, DIN EN 50022 galvanized steel bar, terminal block housing, and screw caps for double insulation.

Dimensions are not explicitly listed but are compact for wall mounting (BigMat Malta). Jangar Waterproof Boxes: Square Box: 9. 3 x 9.

3 x 4. 7 cm, IP55 rating, ideal for outdoor use. Round Box: Diameter 6.

5 cm, height 4 cm, compact and water-resistant for various installations (BigMat Malta). Master Recessed Mount Box: Suitable for wall or ceiling installation, dimensions are 11. 9 x 9.

6 x 7 cm, providing a discreet solution for electrical outlets or switches (BigMat Malta).

Key Features

Protection Ratings: IP55 to IP66, ensuring resistance to dust and water ingress. Mounting Options: Wall-mounted, surface-mounted, or recessed. Materials: Steel, galvanized steel, polycarbonate, and optional stainless steel.

Module Capacity: Typically 1–4 modules for small home units, with larger boxes available for more complex installations. Accessories: Terminal blocks, screw caps, circuit identification labels, and support kits for secure installation.

Considerations for Selection

Indoor vs Outdoor: Choose IP65 or higher for outdoor installations to ensure waterproofing. Size and Module Count: Match the box size to the number of circuits or modules required. Material Durability: Steel and stainless steel offer long-term durability, while polycarbonate provides lightweight and corrosion-resistant options.

For more detailed specifications or custom sizes, local suppliers such as iAutomate Malta, BigMat Malta, and Malta Technical Services can provide tailored solutions and technical datasheets (iAutomate Malta, BigMat Malta, Malta Technical Services).
