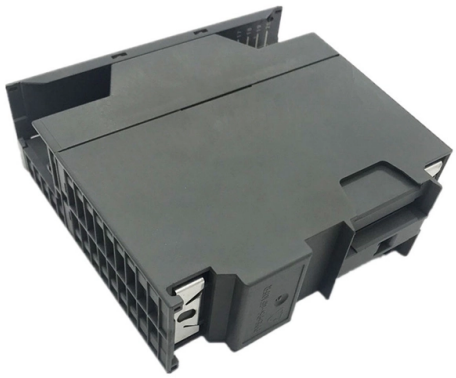
Middle East Explosion-proof Distribution Box Company



Overview

The Warom explosion proof products for the first stage of the USD 2.48 bill CBDC Takreer project is being prepared for shipment from the Shanghai port in China.

Key Takeaways

Key manufacturers in the Middle East include WAROM Technology, ExTek Middle East, and Sensor Control LLC, offering ATEX and IECEx-certified explosion-proof distribution boxes for industrial and hazardous environments.

WARO

M TechnologyWAROM Technology MENA FZCO operates as a regional hub in the Middle East and North Africa, providing a complete solution for explosion-proof products, including distribution boxes, enclosures, and components. Their explosion-proof illumination distribution boxes are designed for industrial lighting automation, hazardous electrical systems, nuclear illumination, and defense applications. These boxes feature a compound design combining flameproof (Ex d) and increased safety (Ex e) chambers, anti-static coatings, anti-loosening fasteners, and color-coded operating panels for safe and efficient operation.

WARO

M also offers customization, assembly, and after-sales support.

Ex

Tek Middle EastExTek Middle East provides a wide range of hazardous area electrical solutions, including explosion-proof junction boxes, plugs, sockets, and signaling components. They focus on oil & gas, industrial, and critical facility applications, ensuring compliance with international safety standards.

Ex

Tek emphasizes preventive maintenance, power system modifications, and sustainable solutions, making them a reliable partner for both Greenfield and Brownfield projects.

Sensor Control LLC

Sensor Control LL

C is a leading supplier of explosion-proof electrical boxes in the UAE, Saudi Arabia, and the broader Middle East. Their products are ATEX, IECEx, and UL certified, ensuring safety in hazardous environments. They offer Exd-type junction boxes (IECEx 60079-1) and Exe-type junction boxes (IECEx 60079-7) in materials such as stainless steel (304, 316L, 316), die-cast aluminum, carbon steel, and glass-reinforced materials.

These boxes are suitable for industrial, oil & gas, and chemical applications, providing reliable protection against electrical faults and potential explosions.

Summary

For businesses in the Middle East seeking explosion-proof distribution boxes, these manufacturers provide: Certified safety compliance (ATEX, IECEx, UL)Durable materials (stainless steel, aluminum, GRP)Customizable designs for specific industrial needsTechnical support and after-sales service These companies are well-established in the region and cater to hazardous environments, including oil & gas, industrial automation, and defense sectors.
