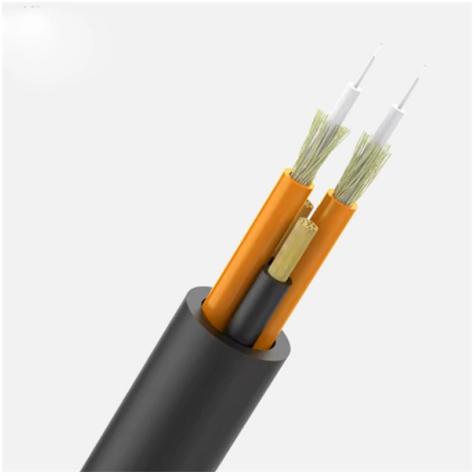
Mozambique Underground Optical Cable Manufacturer



Overview

Executive Logistics As representatives of CAFCA Cables for the past 7 years, Executive Logistics stock a full array of CAFCA cables across Mozambique with.

Key Takeaways

M-TEC and CAFCA are key suppliers of underground optical cables in Mozambique, offering a range of direct-buried and duct cables suitable for telecom and industrial applications. Key Manufacturers and SuppliersM-TEC (Malesela Taihan Electric Cable) is a South African manufacturer that supplies a wide range of optical fibre cables to Mozambique, including direct-buried, duct, indoor, and micro-duct cables. Their products feature single and multi-mode fibres, rodent and termite resistance, and corrugated steel tape armour for durability in underground installations.

M-TEC exports extensively to Mozambique and other Southern African countries, making them a major regional supplier for optical fibre infrastructure projects.

CAFC

A is a manufacturer and distributor of various electrical and telecommunication cables in Mozambique. They offer underground armoured cables suitable for industrial and utility applications. Executive Logistics, as a representative of CAFCA, maintains a stock of these cables across Mozambique, ensuring fast delivery and compliance with stringent installation requirements.

Celmoque (Grupo Visabeira) operates in Mozambique with a focus on electrical cables and telecommunication networks. While primarily a commercial distributor, they provide treated wooden poles and cable solutions that support underground and overhead installations, making them a relevant local partner for infrastructure projects.

Considerations for Procurement

Cable Type: For underground installations, armored or duct cables are preferred for protection against environmental hazards and rodents. Fibre Count: M-TEC offers cables with 2–144 fibres, suitable for both small-scale and large-scale network deployments. Local Availability: CAFCA and Celmoque provide local stock and distribution, which can reduce lead times and logistical challenges.

Standards and Quality: M-TEC and CAFCA adhere to international standards for optical fibre and electrical cables, ensuring reliability in harsh conditions.

Summary

For underground optical cable projects in Mozambique, M-TEC is the primary regional manufacturer with a strong export presence, while CAFCA and Celmoque provide local distribution and support. These companies collectively cover a wide range of cable types, fibre counts, and installation requirements, making them suitable partners for telecom, industrial, and utility infrastructure projects in Mozambique.
