

North Africa Secondary Distribution Box Manufacturer

Overview

Allbro is a South African manufacturer with more than 800 employees and 20 000 sqm of production facility . Allbro supplies key components that are used in almost every locally made transformer.

Key Takeaways

Key manufacturers and suppliers of secondary distribution boxes in North Africa include Umeme Africa Engineering, Rosslyn Enclosures, and verified B2B contacts via Africa2Trust.

Leading Manufacturers and Suppliers

Umeme Africa Engineering supplies and distributes a wide range of electrical products, including distribution boards, split meter boxes, and transformers. They maintain agreements with various manufacturers to provide both standard and custom electrical enclosures suitable for residential, commercial, and industrial applications. Rosslyn Enclosures specializes in the design and manufacturing of electrical enclosures, mini substations, and distribution transformers.

They offer custom solutions based on client specifications, including panels for solar installations, battery boxes, and inverter distribution boards. Their operations support industries such as mining, industrial, and commercial sectors, providing durable and high-quality products.

Africa2

Trust serves as a verified B2B marketplace and directory across Africa, including North Africa. Businesses can discover manufacturers, distributors, and service providers for secondary distribution boxes and related electrical equipment. The platform allows users to connect with trusted suppliers and explore investment or procurement opportunities.

Regional Presence

While specific North African manufacturers are less frequently highlighted online, companies like Umeme Africa Engineering and Rosslyn Enclosures can supply products to the region. Additionally, Africa2Trust provides access to verified local suppliers across countries such as Egypt, Morocco, Algeria, and Tunisia, enabling buyers to identify regional manufacturers and distributors.

Considerations for Procurement

Customization: Many manufacturers, such as Rosslyn Enclosures, offer custom-built panels and enclosures to meet specific project requirements. **Product Range:** Suppliers often provide a full range of electrical distribution products, including secondary distribution boxes, transformers, and mini-substations. **Local Sourcing:** Using platforms like Africa2Trust can help reduce lead times and improve supply chain efficiency by connecting with local or regional manufacturers.

For businesses seeking secondary distribution boxes in North Africa, starting with these manufacturers and verified B2B directories provides a practical path to sourcing reliable and compliant electrical distribution equipment.
