Opsens fiber optic sensor manufacturer supplies

Overview

Opsens Solutions, a divisions of Opsens Inc., develops, manufactures and supplies a wide range of innovative fibre optic sensing solutions and associated signal conditioners based on proprietary patents and patent-pending technologies. Shaping a new standard – An advanced FFR pressure guidewire with fiber optic sensing technology. Opsens Solutions optical strain. Opsens Solutions offers key solutions in optical temperature, pressure, strain/deformation, linear displacement, force & load for oil & gas, energy, structural health monitoring, defense & aerospace, geotechnical, civil engineering, microwave chemistry, food, industrial applications and research. Fiber optic sensors manufacturer offering solutions for interventional cardiology Fractional Flow Reserve FFR, Oil and Gas and industrial applications. We deliver. OpSens OPP series fiber optic pressure transducers are designed to provide accurate measurement in the most adverse conditions. Its small size and EMI/RFI/MRI immunity makes it the ideal sensor for harsh environments or sensitive applications.
