

Price of Colored Metal Cable Trays

Overview

Cable Tray Price Per Meter: Market Analysis & Cost Discover the key factors affecting cable tray price per meter, including materials, demand, and competit.

Key Takeaways

Colored metal cable trays typically range from £15 to £150 per meter, depending on material, size, and design.

Factors Affecting Price

Material: Stainless steel, electro-galvanized steel, and hot-dip galvanized steel are common options. Stainless steel trays are more expensive due to corrosion resistance and durability, while electro-galvanized steel is moderately priced, and hot-dip galvanized steel offers long-term protection at a slightly higher cost. **Tray Type:** Ladder trays, wire mesh trays, and basket trays vary in price.

Ladder trays for heavy-duty power cables are generally more expensive than wire mesh or basket trays designed for lighter loads. **Size and Load Capacity:** Wider trays or those designed to carry heavier cables cost more. Standard widths range from 100mm to 600mm, with longer lengths increasing the total price.

Color Coating: Colored trays, often powder-coated for aesthetics or identification, add to the cost. The coating provides additional protection against corrosion and wear, which can increase the price by 10-30% compared to uncoated metal trays.

Typical Price Ranges

Small under-desk or light-duty trays: £15–£30 per meter (e.g., metal mesh trays for office use). Standard industrial ladder or basket trays: £40–£90 per meter, depending on material and load capacity. High-end stainless steel or large heavy-duty trays: £100–£150 per meter, suitable for harsh environments or outdoor installations.

Additional Considerations

Installation and Accessories: Brackets, supports, and connectors may add 10–20% to the total cost. Supplier and Delivery: Prices vary by supplier, with options for bulk discounts, fast delivery, or eco-friendly products. Compliance: Ensure trays meet standards such as DIN EN 61537 or IEC for safety and durability.

In summary, the price of colored metal cable trays depends on material, type, size, and coating, with typical costs ranging from £15 to £150 per meter. For precise pricing, it is recommended to request quotes from suppliers like RS Components, McMaster-Carr, or Amazon, specifying the tray type, color, and length required.
