Price of Indian Fiber Optic Splice Boxes

Overview

Find Splice Box manufacturers, suppliers, dealers & latest prices from top companies in India. Buy from a wide range of Splice Box online.

Key Takeaways

In India, fiber optic splice boxes typically cost between ₹500 and ₹5,000 depending on capacity, quality, and manufacturer.

Price Range and Factors

Fiber optic splice boxes in India are available from multiple suppliers and manufacturers, with prices varying based on: Fiber Capacity: Small splice boxes for 6–12 fibers are generally cheaper, while larger boxes for 24–144 fibers cost more. Material and Build Quality: Boxes made from durable ABS or metal with weatherproofing features are priced higher. Brand and Supplier: Established brands or certified suppliers may charge a premium.

Additional Features: Some splice boxes include trays, adapters, or pre-installed pigtails, which can increase the cost. Typical price ranges observed in Indian markets are: Basic small-capacity splice boxes: ₹500–₹1,500Medium-capacity boxes (12–48 fibers): ₹1,500–₹3,000High-capacity or premium boxes (up to 144 fibers): ₹3,000–₹5,000 or more Additional ConsiderationsWhile the splice box itself is relatively affordable, the total cost of fiber optic splicing includes labor, fusion splicing tools, and testing equipment. For example: Fusion splicing labor: $50–$150 per splice point, depending on project size and site conditions Splicing tools: Fusion splicers can cost $3,000–$15,000, cleavers $500–$2,000, and OTDR testers $5,000–$20,000 For bulk purchases or large projects, suppliers often offer volume discounts, which can significantly reduce the per-unit cost of splice boxes.
