

Price of Steel Mesh Cable Tray

Overview

Cable Tray Price Per Meter 2026: Market Trends Discover the latest cable tray price per meter in 2026, including steel, wire mesh, and aluminum tray costs.

Key Takeaways

Steel mesh cable trays typically range from \$20 to \$150 per meter, depending on material, size, and supplier.

Price Overview

The cost of steel mesh cable trays varies based on material type, dimensions, and customization: **Material:** Stainless steel (SS304 or SS316) trays are more expensive due to corrosion resistance and durability, while electro-galvanized steel trays are generally lower in cost. **Dimensions:** Widths range from 200 mm to 500 mm, heights from 50 mm to 200 mm, and lengths from 300 mm to 3000 mm. Larger or thicker trays increase the price.

Wire Diameter: Wire thickness typically ranges from 3.5 mm to 6 mm, affecting strength and cost. **Customization:** Custom sizes, bends, curves, and fittings can increase the price, but suppliers like JLH Electric and EAE Electric offer competitive factory pricing for tailored solutions.

Supplier Examples

Alibaba: Offers CE-certified steel wire mesh trays with a 10-year guarantee and free samples. Prices vary widely depending on specifications and order quantity.

McMaster-Carr: Provides over 475 wire mesh tray products with same or next-day delivery, suitable for industrial and commercial applications.

JL

H Cable Tray: Stainless steel wire mesh trays are priced competitively, with options for custom lengths and widths, ideal for indoor and outdoor installations.

EA

E Electric: Offers stainless steel or electro-galvanized trays with flexible routing, compatible with clamps and suspension systems, with detailed pricing available upon request. Grainger: Provides wire mesh cable trays for small-diameter cables, with real-time pricing and availability, suitable for complex cable runs and whole-facility installations.

Key Considerations

When budgeting for steel mesh cable trays, consider: Indoor vs. Outdoor Use: Stainless steel is preferred for outdoor or corrosive environments. Load Capacity: Heavier cables require thicker wire or larger trays.

Installation Complexity: Custom bends, tees, and slopes may increase cost. Supplier and Delivery: Bulk orders or local suppliers may reduce per-meter cost. Overall, expect prices from \$20 per meter for basic electro-galvanized trays to \$150 per meter for high-grade stainless steel trays with custom dimensions and fittings.
