

Price of Waterproof Household Electrical Distribution Cabinets and Boxes

Overview

Prices for items sold by Amazon include VAT. Depending on your delivery address, VAT may vary at Checkout. For other items, please see details.

Key Takeaways

Waterproof electrical distribution boxes for home use typically range from \$10 to \$150 depending on size, material, and included features.

Price Ranges and Options

Small AB

S Junction Boxes (IP65): Compact boxes suitable for basic wiring or small circuits are priced around \$10–\$25. These are made of durable ABS plastic, flame-retardant, corrosion-resistant, and suitable for indoor or outdoor use. Medium Distribution Boxes with Circuit Breaker Slots: Boxes designed to house multiple circuit breakers or small electrical panels typically cost \$30–\$70.

They often feature transparent covers for easy inspection, reinforced seals, and IP65 waterproof ratings.

High-

Capacity Power Distribution Boxes: Larger boxes with integrated sockets, meters, or high-current breakers can range from \$80–\$150. These may include IP44–IP65 waterproof sockets, pre-wired interiors, and ETL-certified components for enhanced safety. **Retailer Options:** Home Depot and Amazon offer a variety of brands such as VEVOR, BELL, Leviton, and MOLLUM, with free shipping or in-store pickup options for convenience.

Key Features to Consider
IP Rating: IP65 is common for home-use boxes, providing protection against dust and water jets. Some boxes may have IP44-rated sockets inside for additional protection. **Material:** High-quality ABS or PC+ABS alloy ensures durability, heat resistance, and corrosion resistance.

Installation: Most boxes are wall-mountable with pre-drilled holes and removable mounting plates for flexible wiring. **Applications:** Suitable for indoor and outdoor use, including lighting, communication, solar connections, car charging posts, and general home electrical distribution.

Summary

For typical home use, expect to pay \$10–\$25 for small junction boxes, \$30–\$70 for medium-sized breaker boxes, and \$80–\$150 for larger, feature-rich distribution boxes. Prices vary based on size, material, IP rating, and included accessories, so selecting a box that matches your specific electrical needs and installation environment is essential.
