Price of cable management rack at the top of server rack

Overview

Discover professional-grade cable management systems designed for 19-inch server racks and network cabinets. Keep cables organized and improve airflow.

Key Takeaways

Cable management racks for server tops typically range from $50 to over $600 depending on type, size, and material.

Horizontal and Vertical Cable Management

Horizontal 1U–2U panels: These are mounted directly on the rack and help organize cables at specific heights. Prices range from $12 to $60 for standard metal or plastic panels (Sysracks, AVADirect, FireFold) and up to $144 for premium horizontal panels with covers or D-ring hooks (AVADirect, Nerd Techy). Vertical cable managers: These panels run along the side of the rack and are ideal for routing multiple cables vertically.

Prices vary widely: Entry-level vertical D-ring panels: $50–$150 (AndCable, FireFold, AVADirect). Professional-grade vertical panels for 42U racks: $191–$623 (APC NetShelter, Dell, Tripp Lite).

Overhead and Top-

Mounted Cable Trays

Top cable troughs and overhead trays: Designed to attach directly to the top of server racks, these provide space for routing cables without modifying the rack structure. Prices include: Great Lakes Top Cable Troughs: $124. 80–$165 depending on width (24–30 inches).

AP

C AR8571 750mm cable trough: $232. 93–$336. Ladder-style cable trays and runway kits: $66–$381 depending on length and configuration.

Raceways and PV

C Cable DuctsPVC cable raceways: Horizontal raceways mounted on top or under racks for smaller cable bundles. Prices range from $28 to $66 for 1–2 unit kits, and larger 6. 4 ft kits cost around $50–$60 (ZhiYo, StarTech, Nerd Techy).

Summary of Price RangesTypePrice RangeHorizontal 1U–2U panels$12–$144Vertical D-ring panels$50–$623Top cable troughs / overhead trays$124–$336+PVC cable raceways$28–$66 (small kits), $50–$60 (larger kits)ConsiderationsRack size and cable volume: Larger racks or high-density setups require more robust vertical or overhead solutions. Material and durability: Metal panels and ladder trays are more expensive but offer better longevity and load capacity. Installation: Some top-mounted trays require minimal tools, while ladder-style runways may need bolting or splicing kits.

Customization: Modular systems allow expansion and flexible cable routing, which can affect cost. Overall, for a standard 42U server rack, a top-mounted cable management solution can cost anywhere from $125 for a basic trough to over $600 for a professional vertical or overhead system. Combining horizontal and vertical management panels can further optimize cable organization and airflow.
