Price of fire-resistant cable trays in Slovakia

Overview

The stock and the price of the product are for information only and may change during the day. Shop high-quality fire proof cable trays for industrial and commercial use.

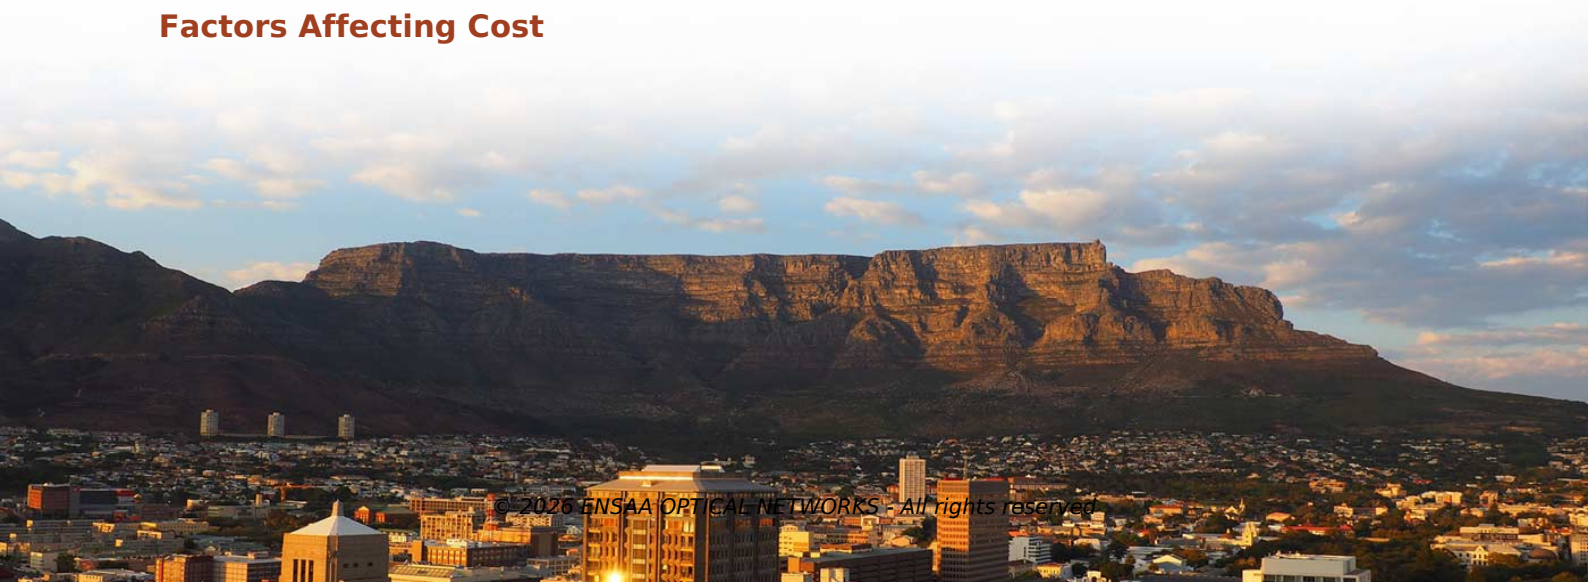
Key Takeaways

Fireproof cable trays in Slovakia typically range from $10 to $25 per meter, depending on material, type, and supplier.

Price Overview

The cost of fireproof cable trays depends on several factors, including material, coating, size, and supplier. In Slovakia, suppliers such as MIL-KABEL-SYSTEMS, VALDINOX, and CABLElink offer high-quality metal and fiberglass trays suitable for fire-resistant applications. Typical price ranges per meter are: Galvanized steel trays: $10–$18 per meterStainless steel trays: $18–$25 per meterFiberglass or high-strength composite trays: $15–$25 per meter Bulk orders or project-specific quotations can reduce costs by 20–40%.

Factors Affecting Cost



© 2026 ENSAA OPTICAL NETWORKS - All rights reserved

Material Type: Stainless steel and fiberglass are more expensive due to corrosion resistance and fireproof properties, while galvanized steel is more affordable. Tray Design: Ladder trays, perforated trays, and wire mesh trays vary in price; ladder trays support heavier cables and cost more, while wire mesh trays are lighter and cheaper. Surface Treatment: Hot-dip galvanizing or powder coating increases durability and price, especially for outdoor or high-temperature environments.

Installation and Accessories: Covers, reducers, T-joints, and mounting hardware add to the total cost. Order Quantity and Supplier: Larger orders often benefit from discounts, and local suppliers may offer lower shipping costs compared to imports. Local Suppliers in SlovakiaStrader.sk: Offers a variety of cable tray covers and accessories suitable for fire-resistant installations.

CABL

Elink Slovakia: Provides industrial and specialized cable trays, including high-strength and fireproof options. SFSP-IKK: Supplies steel, stainless steel, and aluminum trays compliant with international standards, suitable for fireproof applications.

Recommendations

For industrial or high-risk environments, stainless steel or fiberglass trays are recommended for fire resistance. Request project-specific quotations from multiple suppliers to compare prices and ensure compliance with Slovak and international fire safety standards. Consider bulk purchasing to reduce per-meter costs and include all necessary accessories for installation.

By considering these factors, you can estimate the total cost of fireproof cable trays in Slovakia and select the most suitable supplier for your project.
