Ranking of Manufacturers of Low-Voltage Optical Cable Protection Pipes

Overview

56 Cable Protector Manufacturers in 2026 This section provides an overview for cable protectors as well as their applications and principles. Also, please.

Key Takeaways

Leading manufacturers of low voltage optical cable protection pipes include Eupen Cable, Weltplast, Pipelife, and Protectorshell, offering PE, PVC, and PP solutions for underground, industrial, and fiber optic applications.

Eupen Cable

Eupen produces PE and PVC pipes for the protection of low and medium voltage cables, as well as telecommunication, coaxial, and fiber optic cables. Their pipes are suitable for ground installation, building use, tunnels, and tracks, offering high mechanical resistance, watertightness, and chemical resistance. For fiber optic cables, Eupen provides grooved inner walls to optimize blown-in behavior and allow maximum blow-in lengths.

They also offer halogen-free pipes for fire safety in domestic installations.

Weltplast

© 2026 ENSAA OPTICAL NETWORKS - All rights reserved

Weltplast offers the Weltplast.protect system, including single-layer and multi-layer pipes for optical cable protection. Their Optical-PEHD pipes are made of PE80 polyethylene with longitudinal grooves for efficient fiber optic cable installation. They also provide two-layer OpticalSIlicore pipes with up to 90% PE80 and an inner SILICORE layer, ensuring high performance for telecommunication and signaling cables.

Color-coded pipes (black, orange, blue) facilitate network standardization.

Pipelife

Pipelife manufactures rigid and flexible PE, PP, and PVC pipes for cable protection, including fiber optic ducts. Their products are sand-proof, waterproof, and fireproof, suitable for underground and overground installations. Pipelife offers ribbed and lubricated ducts for high-speed air pressure injection of fiber optic cables, with large-diameter HDPE pipes extruded continuously up to 600 meters, and smaller diameters up to 2.

5 km. Their solutions are certified to national and international standards.

Protectorshell

Protectorshell specializes in split pipes for fiber optic, subsea, and offshore wind cables. Their ductile iron split pipes provide abrasion and impact protection in shallow water and offshore environments. Manufactured in Spain and Australia, these pipes are suitable for shore-ends, pipeline crossings, and subsea cable protection, with a range of accessories like J-Tube seals, bend restrictors, and bend stiffeners for offshore applications.

Summary

For low voltage optical cable protection, these manufacturers provide a variety of solutions: Eupen Cable: PE/PVC pipes, grooved for fiber optics, fire-safe options. Weltplast: PE80 and SILICORE pipes, color-coded for network standardization. Pipelife: Flexible and rigid PE/PP/PVC pipes, long continuous lengths, fiber optic ducts.

Protectorshell: Ductile iron split pipes for subsea and offshore fiber optic protection. These companies offer products suitable for industrial, civil engineering, and telecommunication applications, ensuring mechanical durability, chemical resistance, and ease of installation.

56 Cable Protector Manufacturers in 2026

This section provides an overview for cable protectors as well as their applications and principles. Also, please take a look at the list of 56 cable protector manufacturers and their company rankings.

Low Voltage Cable Companies

List of the top Low Voltage Cable companies based on extensive research conducted by Mordor Intelligence analysts and expert advisors that identified these brands to be the leaders and major

Top 10 Companies in the Cold Shrink Tubing Industry (2025): Market ...

This blog profiles the Top 10 Companies in the Cold Shrink Tubing Industry —a mix of global giants and specialized innovators shaping the future of cable jointing and component protection.

Eupen Cable: plastic pipes for the protection of cables and wires

Our cable protection solutions offer excellent mechanical resistance and are fully watertight. Our product range comprises protection pipes for medium or low voltage cables as well as for telecommunication,

Cable Protection Pipe Systems | Pipelife

Whether for underground or overground installations, you have a wide choice of cable protection solutions to ensure your power and cable lines are fully

Eupen Pipe: Cable Protection pipes and empty conduits

Cable Protection PE pipes provide special mechanical protection for cables and wires used in all areas of civil engineering, both outdoors (above ground and underground) and indoors.

Top 10 Companies in the Polyethylene Sheath Material Industry (2025 ...

As digital connectivity and power transmission networks expand worldwide, specialized polyethylene compounds are becoming critical for durable cable jacketing. This analysis examines

Protective Pipes and Sleeves for Powerlines | Pipelife

We produce a wide variety of protection pipes in PE and PVC for telecommunication and power cables, which can also be used for underground and underwater applications.

EuropaCable – The voice of Europe''s leading wire and cable

The voice of Europe''s leading wire, cables and cable accessories manufacturers. Europacable represents the largest cable and cable accessories makers in the world, as well as highly specialized

List of electrical cable manufacturers

This table shows the biggest manufacturers of cable in terms of revenue. The revenues noted here are total revenue of the group as reported in financial statements.

EVODUCT Optical cable pipes

When constructing ground-buried optical cable and communication cable systems, the best solution is to ensure the long-term protection of the cables with rigid

Eupen Pipe: Cable Protection pipes and empty conduits

Eupen Pipe offers a wide range of PE pipes for cable protection. Among these are protection pipes for various power cables, such as high, medium and low voltage

109 Fiber Optic Cable Manufacturers in 2026

This section provides an overview for fiber optic cables as well as their applications and principles. Also, please take a look at the list of 109 fiber optic cable manufacturers and their company rankings.

Cable protection pipes

KG2000 e-line cable protection pipes Our high-quality KG2000 e-line is also suitable as a plastic pipe system made of PP-MD according to DIN 16878 for

10 Best Fiber Optic Manufacturers for 2026

Discover the best fiber optic manufacturers globally, offering cutting-edge multimode and single mode fiber solutions. See who tops the list for quality and innovation.

Top 20 Fiber Optic Cable Manufacturers in the World

Based on 2025 rankings from industry sources like Owire and TSCables, the top manufacturers are evaluated on market share, innovation, and

Top 15 Fiber Optic Manufacturers (2026 Global Ranking)

An authoritative 2026 guide to the top 15 fiber optic manufacturers — from Corning and Prysmian to Fujikura and LS Cable — with headquarters, tech focus, and flagship products.

Protective Pipes and Sleeves for Powerlines | Pipelife

© 2026 ENSAA OPTICAL NETWORKS - All rights reserved

For fiber optic cable protection, we also offer a complete range of polyethylene (PE) piping solutions. Working closely with major telecommunication service
