Secondary distribution box 1400

Overview

GIFAS Small Mobile Distributor – Type 1400 (Art. No: 301480) is a small, simple and easy to install electric power distribution box. Well suited for many applications, especially in areas that depend on high-quality, robust enclosures and total reliability. ACS takes the basic idea of zone wiring and combines it with pre-cut, pre-tested cable and plug-in connectors, to provide power and telecommunication systems that can be installed under raised floors (The Intelligent Floor), or in accessible ceilings (The Intelligent Ceiling). GIFAS stands for proven quality when it. are designed for 600 V (max. They are made from 14 GA or 16 GA stainless steel. They have four mounting holes and a screw. Portable solid rubber junction box series 1400 made from vulcanized butyl rubber with carrying handle. Perfectly assembled according to your requirements and demands – With Schuko and CEE socket or different plug-in systems as telephone socket and antenna socket, cable glands, standard rails. Enhance your electrical system with the Siemens PowerMod™ WEB1400BU, a robust 3-Pole Combination Circuit Breaker and Pull Box Module designed for reliable performance at 400 A. IEC and UL compliant making it sturdy, robust, and durable for maximum component protection.
