Special steel tape for communication optical cables

Overview

Copolymer Coated Steel Tape (also called CCST) is mainly used as a shield and moisture-proof layer inside the "jacket" of a communication cable, optical fiber (or fiber-optical) cable or similar. It consists of a steel tape, which is coated on both sides with an adherent ethylene. Freudenberg Performance Materials provides high-performance nonwoven cable tapes for a variety of industries. This product is designed to provide. Helical stranded steel tapes provide a very good protection while maintaining cable flexibility and ease of installation. Steel Tapes are unique materials for the Optical Fiber and special cable applications which need specific properties on armouring function to prevent external forces and anti-corrosion function for the longest life underground conditions.

Article Content

Tapes For Data Cables Industry Solutions

Freudenberg Performance Materials provides high-performance nonwoven cable tapes for a variety of industries. Our materials meet the specific quality and

Steel tape armoured loose tube

Helical stranded steel tapes provide a very good protection while maintaining cable flexibility and ease of installation.

Steel Tapes (Steel Based Tapes, ECCS Tapes)

Steel Tapes are unique materials for the Optical Fiber and special cable applications which need specific properties on armouring function to prevent external forces and anti-corrosion function for the longest

Application And Advantages Of High-Performance Plastic Coated

Plastic coated steel tape, also known as laminated steel tape, copolymer-coated steel tape, or ECCS tape, is a widely used composite functional material in modern optical cables,

Copolymer Coated Steel Tape (ECCS/Copoly (PE)

Copolymer Coated Steel Tape is a semi-flexible composite material which Copolymer coated on various thicknesses of Steel (ECCS) foil.

COPOLYMER COATED STEEL TAPE

Copolymer Coated Steel Tape (also called CCST) is mainly used as a shield and moisture-proof layer inside the "jacket" of a communication cable, optical fiber (or

STEEL TAPE LONGITUDINAL LAYER-STRANDED FIBRE OPTIC CABLE

Buy Steel Tape Longitudinal Layer-Stranded Fibre Optic Cable at the best price from Norden Communication, the global manufacturer and supplier of electrical and optical solutions. Choose

Cable Tapes and Jointing Components

For telecommunications and data cables, Scapa Industrial has a comprehensive range of cable protection and water-blocking tapes, yarns, and accessories for optical fiber and copper cables and

GYTA-4 4-core 8-core 12 core 24 core communication optical cable

The loose tube is filled with special grease to provide critical protection for the fiber optic cable. The central reinforcement component uses corrosion-resistant, high Young''s modulus phosphated steel wire

Armoring Shielding Insulation Copolymer Coated Steel

Copolymer Coated Steel Tape is ideal for wrapping and shielding communication optical fiber cables Feature Copolymer Coated Steel Tape has Good wear

STEEL TAPE LONGITUDINAL LAYER STRANDED OPTICAL CABLE

Buy Steel Tape Longitudinal Layer Stranded Optical Cable FR PE at the best price from Norden Communication, the global manufacturer and supplier of electrical and optical solutions. Choose

Global Manufacturer & Supplier of Double Steel Tape Armoured ...

Buy Double Steel Tape Armoured Longitudinal Stranded Fibre Optic Cable at the best price from Norden Communication, the global manufacturer and supplier of electrical and optical solutions. Choose

Central Loose Tube Double Steel Tape Armoured Cable

Buy Central Loose Tube Double Steel Tape Armoured Cable at the best price from Norden Communication, the global manufacturer and supplier of electrical and optical solutions. Choose

B-Series Breakout

Inner cable is a fully functional B-Series Breakout riser-rated cable High-performance components and construction Most rugged and easy to install cable design for enterprise cabling applications 2.5mm

288 Core Optical Fiber Cable

Discover 288 core optical fiber cables with high-density core count for FTTH and telecom networks. Ideal for long-distance, high-speed data transmission.
