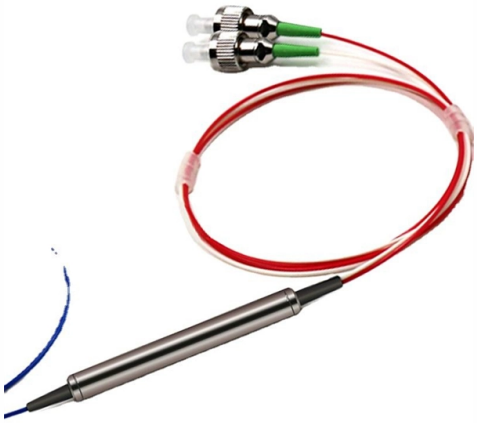
Tax Classification Code for Stainless Steel Cable Trays



Overview

Cable Tray Hsn Code July 2026 : Accurate GST Rate for All Type The Hsn code for Cable tray installation uses the Service Accounting Code (SAC) 995461. This.

Key Takeaways

Stainless steel cable trays are classified under HSN Code 73089090 and attract an 18% GST rate in India.

HSN Code Classification

Stainless steel cable trays are considered structural support components for electrical cables rather than electrical machines themselves. They fall under Chapter 73: Articles of iron or steel, specifically under HSN Code 7308, which covers “Structures and parts of structures of iron or steel.” Within this chapter, the subheading 73089090 is used for “Other structures and parts of structures of iron or steel,” making it the most widely accepted classification for stainless steel cable trays in India.

Material and Functional Considerations

The classification depends on both the material and primary function of the tray: Material: Stainless steel, galvanized steel, or aluminum. Stainless steel trays are included under the iron/steel category. Aluminum trays would fall under Chapter 76, and FRP trays under Chapter 39.

Function: Cable trays serve as support structures for routing and organizing electrical cables in commercial, industrial, and residential installations. They do not carry current themselves, which distinguishes them from electrical apparatus.

GST Rate

Cable trays classified under HSN 73089090 are subject to 18% GST. This rate applies to stainless steel, galvanized steel, and similar metallic cable trays used as structural supports.

International Trade Classification

For global trade, stainless steel cable trays are also classified under HS Code 732690, which covers “Other fabricated iron or steel articles” and includes ladder-type, perforated, and solid-bottom trays along with associated fittings. This classification is consistent with their fabricated structural nature and functional purpose. SummaryHSN Code (India): 73089090GST Rate: 18%Material: Stainless steel (also applies to other steel variants)Function: Structural support for electrical cablesInternational HS Code: 732690 (Articles of iron or steel, fabricated) This classification ensures compliance for invoicing, GST returns, and import/export documentation, while distinguishing stainless steel cable trays from electrical cables or non-metallic support systems.
