Waterproof and moisture-proof fiber optic tray

Overview

An IP65-rated fiber optic box type uses a sealed enclosure that blocks dust and resists water jets from any direction. The design often features high-strength engineering plastic, a secure key and buckle system, and UV-resistant materials. Engineers often choose wall-mount or rack-mount fiber terminal boxes for these ratings, as they deliver robust protection for fiber optic networks. The IP65 rated fiber optic termination boxes, such as compact 8-port models, excel in both indoor and outdoor settings by shielding connections from. Used in the integration of the incoming cable and the drop cable, the optical fiber splicing, winding, storage, and distribution. It comes equipped with a built-in rack for storing. Introducing the NavePoint 00407610, an outdoor single door fiber optic distribution management enclosure designed to withstand the rigors of outdoor environments.
