

Which company in New Zealand specializes in cable trays

Overview

We offer a range of versatile and cost effective cable support systems, as well as an in-house custom solution design service.

Key Takeaways

FDG, S. E. P, Brilltech Engineers, and Tilley Group are among the top companies in New Zealand for high-quality custom cable trays.

FD

G Cable Tray SolutionsFDG offers a full range of cable trays, ladders, baskets, and support products designed for power, data, and audiovisual systems. Their products are available in pre-galvanized and hot-dip galvanized finishes, with options for custom painting to meet architectural requirements.

FD

G trays are modular, adjustable, and easy to install, allowing for future modifications and maintenance. They also provide engineering data and compatibility with FDG Modframe™ and STRUT™ systems, making them versatile for various project sizes and configurations. S.

E. P Stainless Steel Wire Mesh TraysS. E.

P specializes in stainless steel wire mesh cable trays, fabricated from T304 / ½ Hard Tempered Stainless Steel Rod meeting international standards (DIN 1. 4571 / AISI 316 TI). Their trays are designed for excellent air circulation, corrosion resistance, and durability, suitable for demanding electrical and industrial environments.

S. E. P also offers pre-made bends, risers, T-sections, and a full range of accessories, ensuring a complete and customizable solution for complex installations.

Brilltech Engineers

Brilltech Engineers provides high-quality cable trays in galvanized steel, stainless steel, and fiberglass, emphasizing durability, safety, and airflow optimization. Their trays are designed to protect cables from physical damage and environmental hazards, while promoting efficient cable management. Brilltech also offers installation support, system design assistance, and expert consultation, making them a reliable choice for both small and large-scale projects.

Tilley Group

Tilley Group manufactures custom electrical cable trays with precision punching using advanced machinery, offering sheet sizes up to 1525x5000mm with +/- 0.1 mm accuracy. They provide custom fittings and support brackets, allowing for tailored solutions that meet specific project requirements.

Recommendation

For versatile and modular solutions, FDG is highly recommended. For stainless steel and corrosion-resistant applications, S. E.

P is ideal. Brilltech Engineers is suitable for projects requiring expert support and a variety of materials, while Tilley Group excels in precision-engineered custom trays. Choosing the best company depends on your material preference, project complexity, and customization needs.
