

Which manufacturers produce custom network cabinets in Indonesia

Overview

Top 10 Cabinet Factory In Indonesia In 2026 This guide highlights the top cabinet manufacturers in Indonesia, focusing on companies with strong production.

Key Takeaways

Several Indonesian manufacturers specialize in custom network cabinets, including PT. Uni Network Communications, HLC Sheet Metal Factory, PT. Media Partner Indonesia, and Norden Indonesia.

Key Manufacturers1. PT. Uni Network Communications (UNC) UNC specializes in server racks and data center infrastructure, offering a wide range of cabinets such as closed racks, wall-mounted racks, open racks, colocation racks, air-conditioned server racks, and outdoor cabinets.

They provide custom solutions tailored to specific project requirements, including modifications to existing product lines.

UN

C also supports cold/hot aisle containment, biometric cabinets, and environmental monitoring systems, with delivery and assembly services in Jakarta and surrounding areas (Jakarta, Bogor, Depok, Tangerang, Bekasi). 2.

HLC Sheet Metal Factory HL

C provides sheet metal fabrication and custom network cabinet solutions, including non-standard parts customization. Their services cover laser cutting, CNC machining, stamping, metal stretching, and hardware processing, allowing clients to design cabinets to precise specifications for telecommunication and data center applications.

3.

PT. Media Partner Indonesia This company manufactures standard and custom network cabinets with advanced surface treatments such as degreasing, pickling, anti-rust phosphating, and electrostatic spraying. They focus on high-quality finishes and durability for network and server applications.

4. Norden Indonesia Norden produces wall-mount and flush-mount cabinets for home, office, and external telecommunication environments. Their Easycab and Smartcab ranges comply with international standards (ANSI/EIA, IEC, DIN, ETSI, GB/T) and offer customizable sizes, IP-rated protection (IP55, IP65, IP66), and features like removable panels and biometric access.

Summary

These manufacturers provide a variety of customization options, including size, cooling, access control, and environmental protection. They cater to data centers, telecommunication networks, and office/server environments, ensuring compliance with international standards and offering after-sales support. For projects requiring tailored solutions, contacting these companies directly can help define specifications, production timelines, and delivery options.
